### Notes:

~ Increase or decrease of less than 0.5%

2000 weekly attendance figures include mid-week Weddings and Funerals.

All figures are rounded and include cathedrals.

As totals and percentage changes are calculated on unrounded figures they will not always agree with sums and percentages based on the rounded figures.

Since 1972 new electoral rolls have been prepared every 6 years and as a result new electoral rolls were prepared for 2002.

\*A special question asked for numbers of young people attending other activities connected with the church, generally over the month of October 2002, and also asked the number of adults working through the church/parish with young people aged 11 and over at that time.
